

We are looking for Senior .NET Developer

Are you an amazing Senior .NET/C# Developer? **Verbolia** is a **Belgian** scale-up growing rapidly. We are looking for a senior developer to help build up our platform.

Come and join an exciting growing scale-up that offers a **stable position** and where your **creativity** and **inventiveness** will help grow the product. We offer a very competitive salary and no daily traffic jam!

Who are we?

Verbolia **raised 1M€** seed funding in 2018 and is growing very quickly. We provide the first **SEO-as-a-Service solution**, our technology is based on **7 years of R&D** in Artificial Intelligence and SEO. We are already attracting **millions of SEO visits** on our partners websites, in Belgium and abroad. Based in Enghien, we have a small and dynamic team, and we are expanding to **international markets**.

The role

- Be a **senior member** of the dev team working on the **strategic projects** of the company
- Develop and document new functionalities
- Write the unit tests of your **own code**
- Follow programming and UX guidelines
- Communicate with other members of the team and the product owner
- Practice agility: kanban, peer programming ...

What we're looking for

- At least **7 years' experience** building applications, including browser-based consumer/client-facing applications.
- Experience with ASP.Net MVC, C#, Ajax, Entity Framework, Linq, Javascript or Typescript
- Strong understanding of **.NET Fundamentals** (interfaces, inheritance etc.)
- Knowledge of design and architectural patterns including webapi, IoC
- Experience with source control (TFSVC or GIT), CI and management of environments
- Experience with Elastic Search and MongoDB
- Experience in **Kanban** or other **agile methodologies** and
- Product-driven: understands the business behind a development
- **Team player** with the ability to inspire other developers
- Ability to **share creativity**, ideas and drive and grow the product with the team
- Willingness to learn and improve continuously
- Fluent in French and/or English

What we offer

- Highly **competitive package**
- Having fun with the **latest technologies**

- Be part of a team developing a truly amazing product based on Natural Language Generation, Machine Learning and very advanced SEO techniques
- Opportunity to participate in a **disruptive international business**
- Very **flexible** work environment
- Work outside of Brussels: no traffic jam and plenty of parking space
- **Casual startup atmosphere** (lots of company events, team buildings, free breakfast, company lunches,...)

This is a unique opportunity to break new ground in a fast growing and innovative scale up. Come and join us now!
